**Your Application to Study at the University of Zurich**

**For the Fall Semester 2024 at the Faculty of Business, Economics and Informatics  
Degree program MSc UZH Informatics (RVO22)  
Major 90 Data Science  
Minor 30 Informatics**

Dear Bindi Pireva

We regret to inform you that we are unable to offer you admission to your chosen programs at the University of Zurich.

Prerequisite for admission is completion of a Bachelor's program of at least three years. The degree and credit awarded for all academic achievement must have been earned at a state-accredited university or a higher education institution having the right to confer a PhD. You will complete your studies at City College, University of York Europe Campus and will earn a Bachelor's degree in Computer Science from the University of York. The University of York has the status of a state-accredited university having the right to confer a PhD but not the City College, University of York Europe Campus, which has neither the status of a state-accredited university nor a higher education institution having the right to confer a PhD. For this reason, your degree cannot be recognized and does not meet the requirements for continuing studies at the University of Zurich.

We thank you for your interest in studying at the University of Zurich and wish you much success in your future endeavors.

Sincerely

Claudia Tobescu  
Head of the Admissions Office

**Instructions on the right to appeal**

An appeal against this decision may be lodged within 30 days of receipt. The appeal must be sent in writing to Student Services, Rämistrasse 71, 8006 Zurich and must contain a petition stating the grounds. The contested decision must either be enclosed or precisely designated.
